

Armezon[®] PRO

Herbicide

Armezon[®] PRO Herbicide Bulk & Mini-Bulk Handling

2400 Gallon Bulk

Bulk Requirements

- Stainless steel tank
- ChemFlow Pump
 - 5 hp stainless steel
 - Teflon[®] seals
 - Total Control Systems stainless steel meter
 - Forklift skid
- Blue-lined solvent hose

Use Only Approved Components

- Failure to follow these requirements may result in inaccurate metering of product, leaks, and downtime
- EPDM and Viton[®] components are not approved

Overwintering

- Will not freeze
- Recirculate 1 to 2 times tank volume prior to in-season use
- Low viscosity formulation that won't plug up filters or screens

Armezon PRO herbicide is tough on broadleaf weeds and grasses to protect yield potential.

Technical Information Bulletin
