Using Armezon® PRO Herbicide in Combination with Verdict® Herbicide in a 2 Pass Weed Control System

Benefits of Armezon PRO Herbicide

Two Modes of Action for Weed Resistance Management
Armezon PRO herbicide provides long lasting residual, convenient flexibility across any type of corn and reliable activation.

Flexible Use
- Wide window of application
- Low use rates
- No insecticide restrictions

Consistent Performance
- Low rainfall required for effective weed control
- Postemergence and soil residual control
- Safe for all types of corn

Benefits of Verdict Herbicide

Stronger Foundation
- Lays the groundwork for maximum yield potential
- Broad-spectrum grass and broadleaf control
- Burndown and residual control in one product

Technical Information Bulletin
Always read and follow label directions.
