Priaxor® Pre-Tassel Application: Control Early Season Diseases, Maximize Photosynthesis, and Minimize Stress for Optimum Vegetative Growth

**Benefits of Priaxor Fungicide**
- Longest lasting protection
- Advanced plant health
- 3rd mode of action when used in a sequential program with Headline AMP®

**Benefits of Brandt Smart Trio® micronutrients**
- Proprietary delivery system gets more nutrients to plants faster, for better plant health and yield
- Reduces stress from post-emergent herbicides
- Zinc, Manganese and Boron enhance seed set, pollination, tasseling, kernel production and ear fill
- Tank mix compatible with Priaxor and Fastac™

**Enhanced Photosynthesis with Pre-tassel Applications of Priaxor**

<tr>
<th>Rates and Recommendations</th>
<th>General Guidelines</th>
</tr>
</thead>
<tbody>
<tr>
<td>Use Rate: 1–2 quarts/A</td>
<td>More frequent applications at 2 quarts per acre</td>
</tr>
<tr>
<td>Ground Applications:</td>
<td>may be needed to correct deficiencies once they occur</td>
</tr>
<tr>
<td></td>
<td>Do not add liquid fertilizers containing phosphates</td>
</tr>
</tbody>
</table>

### Priaxor Plant Health Demonstration

- Enhanced root development
- Larger diameter stalks
- Taller plants same stage: V9

Corn plants grown in Purdue University greenhouse. Priaxor applied to V4 corn and transferred to hydroponic solution at V7 corn.
