Priaxor®
Xemium® Brand Fungicide

Advanced Plant Health in Canola

Benefits of Priaxor® Fungicide

- Advanced Plant Health benefits
- Longer lasting protection
- More consistent performance for maximum yield potential

2011 – 2013 Canola Yield Studies

Trials conducted in North Dakota and Canada. 4 fl oz/A of Priaxor fungicide applied 2-6 leaf stage canola (n=21).

Priaxor Fungicide Increases Plant Health to Maximize Canola Yield Potential

1. Field prior to treatment. 2. Untreated – after application. 3. Priaxor Fungicide.

2014 BASF Research Authorization Trial (RA Trials) – BASF sponsored large scale grower trials, conducted prior to registration. Location: Wilcox, SK.

BASF
We create chemistry
Best Use Recommendations

- Use Rate: 4.0–8.0 fl oz/A
- Ground and aerial applications
- Priaxor fungicide may be tank mixed with other products, including herbicides and insecticides
- Priaxor fungicide may be applied with NIS to improve coverage

Target Diseases

Control
- Black leg (*Leptosphaeria maculans*)
- Black spot (*Alternaria spp*)

Suppression
- White mold/Sclerotinia stem rot (*Sclerotinia sclerotiorum*)

Best Application Timing in Canola
