Maximize Corn Yield Potential with BASF Fungicides for Disease Control and Plant Health

Benefits of Priaxor® Fungicide Applied Pre-Tassel
- Controls Early Season Diseases
- Increases Root Growth, Photosynthesis and Leaf Health
- Improves Stress Tolerance

Benefits of Headline AMP® Fungicide Applied at Tassel
- Delivers the Most Yield at Tassel
- Best in Class Preventative and Post-Infection Disease Control
- Improves Stalk Strength

On-Farm Multi-Hybrid x Fungicide Trial, Polo, IL 2015

26 Commercial hybrids (including hybrids from Channel® Seed Brand, DeKalb® Brand Corn, Dyna-Gro® Seed, Pfister® Seeds, and Pioneer® Seeds) were evaluated for yield response to various BASF fungicides and application timings. Hybrids were replicated twice. Aerial photo taken 9/22/15.

### Best Use Recommendations for Priaxor Fungicide

- **Use Rate:** 4 fl oz/A
- **Labeled Crops:** Corn (all types)

### Application Information

- **Aerial:** 2 GPA minimum; **Ground:** 10 GPA minimum
- **PHI:** 7 days for sweet corn; 21 days for all other types
- **REI:** 12 hours

### Adjuvants

- Adjuvant flexible; however, see label for adjuvant restrictions after the V8 stage and prior to the VT stage of corn growth

### Target Diseases

- Anthracnose
- Eyespot
- Gray leaf spot
- Northern corn leaf blight
- Northern corn leaf spot
- Physoderma brown spot
- Rust, southern and common
- Southern corn leaf blight
- Yellow leaf blight

### Best Use Recommendations for Headline AMP Fungicide

- **Use Rate:** 10 to 14.4 fl oz/A
- **Labeled Crops:** Corn (all types)

### Application Information

- **Aerial:** 2 GPA minimum; **Ground:** 10 GPA minimum
- **PHI:** 20 days for field and popcorn grain; 7 days for seed and sweet corn
- **REI:** 12 hours

### Adjuvants

- Adjuvant flexible; however, see label for adjuvant restrictions after the V8 stage and prior to the VT stage of corn growth

### Target Diseases

- Anthracnose
- Eyespot
- Gray leaf spot
- Northern corn leaf blight
- Northern corn leaf spot
- Physoderma brown spot
- Rust, southern and common
- Southern corn leaf blight
- Yellow leaf blight
