Technical Information Bulletin

Priaxor fungicide protects yield potential from early season stresses

150 years

Technical Information Bulletin

We create chemistry
Priaxor® Fungicide Early Season
Use Directions

- For early season disease control and Plant Health, apply Priaxor fungicide at 2–4 fl oz/A

Wheat Fungicide Portfolio: Product for Every Wheat Segment

**Stamina F3 Cereals**
- Fungicide Seed Treatment
  - Broad-spectrum seedling disease control
  - Increased emergence (certain cold conditions)
  - Convenient application

**Priaxor®**
- Xemium® Brand Fungicide
  - Herbicide/Top Dress
    - Advanced Plant Health
    - 3rd MOA
    - Longer residual activity
    - Crop safety

**Twinline®**
- Fungicide
  - Flag Leaf (Feekes 8–10)
    - Consistent flag leaf protection
    - Broad spectrum disease control
    - Proven Plant Health

**Caramba®**
- Fungicide
  - Anthesis (Feekes 10.5.1)
    - Excellent head scab suppression
    - Late season leaf disease control
    - Increased yield & grain quality
