

When you plant BASF soybean seed, you get more than a precise soybean variety bred and tested to minimize local weed, pest and disease pressures. BASF Soybean Seed brings you:

Quality Pledge

- Best-in-class seed production practices that leave nothing to chance
- Rigorous testing that goes above and beyond industry standards
- Meticulous assessment at every stage, from harvest to shipping

Agronomic Expertise

- Experienced teams of soybean experts who bring guidance and local support to your operation
- Providing in-depth insights on seed, seed treatment and crop protection
- Dedicated to delivering better production and performance on every soybean acre

Proven Portfolio

- A national lineup of high-performing soybean seed varieties
- Leading seed treatment options that enhance emergence and early vigor
- Complete selection of top-of-the-line crop protection solutions

Engenia Herbicide is a U.S. EPA Restricted Use Pesticide. Additional state restrictions may apply. Liberty is not registered for use in all states. Poncho/VOTIVO is not registered for use in all states.

Soybean Seed 2021 Varieties South

Knowing what works on your acres is how you gauge success.

Continuous Innovation

- Industry-leading soybean trait pipeline with stacked herbicide traits and SCN tolerance
- The most robust soybean crop protection pipeline in the industry

Precise Varieties

- Extensive data on each variety developed from testing in a wide variety of conditions
- Bred to withstand local pest and disease pressure
- Broad seed portfolio enabling you to plant multiple varieties on your farm to maximize your ROI

Breeding

- Six state of the art soybean breeding facilities across North America to ensure the right varieties are getting on the right acre
- Skilled breeders equipped with the latest technology and breeding methods to develop precise varieties faster
- Superior germplasm and market-leading herbicide tolerant trait packages designed to deliver varieties that fit your needs

Group 4: Synthetic Auxins
Group 9: EPSP Synthase Inhibitor

Group 10: Glutamine Synthetase Inhibitor
Group 27: HPPD Inhibitors

RATING SCALE: 1: Excellent 9: Poor - : Testing Underway

LibertyLink GT27 is not tolerant to all HPPD herbicides. HPPD herbicides currently on the market are prohibited for use with LibertyLink GT27 soybeans and may result in significant crop injury.
