

Sharpen®

Powered by **Kixor®** Herbicide

Fall Weed Control in Winter Wheat

Benefits of Sharpen® Herbicide

- Powered by Kixor® Herbicide Technology
 - Control of the toughest broadleaf weeds
 - Control winter annuals including mustard species, glyphosate resistant marestail & ALS resistant chickweed
 - Residual broadleaf weed control at rates ≥ 2 fl oz/A
- Speed of Control
 - Three to five times faster burndown than 2, 4-D ester or glyphosate
- Flexible
 - Broad-spectrum broadleaf weed control
 - Preplant interval flexibility
 - Wide range of crops

Jagged Chickweed Suppression

Untreated

Sharpen Herbicide
2 fl oz/A

University of Delaware Field Trial. Pre-application Oct. 2013, picture Apr. 2014.

Sharpen herbicide makes burndown simple – manage your fields more effectively and help improve your ROI.

Best Use Recommendations

Wheat Application Recommendations

- Sharpen herbicide (1-4 fl oz/A) + glyphosate

Application Timing*

- Preplant
- Preemergence

Application Requirements

- Adjuvants: MSO (1 gal/100 gals or minimum 1 pint/A) + AMS (8.5 to 17 lbs/100 gal)
- Optimal Spray Volume: Ground 15 GPA, Air 5 GPA
- Rainfast in 1 hour

* Sharpen herbicide must be applied prior to crop emergence or severe injury will occur.
