U.S. EPA Restricted Use Pesticide Application Record Keeping Requirements Form

Applicators should keep the following records for a period of two years (unless your state requires longer); records must be generated within 72 hours of application (unless your state requires shorter) and a record must be kept for each application to each field. Records must be made available to State Pesticide Control Official(s), USDA, and EPA upon request. The following information must be recorded and kept as required by the Engenia® herbicide label and all applicable law.

Crop:	Location of the Application (Field name or GPS coordinates):	
<input type="text"/>	<input type="text"/>	
OTT Dicamba Product Name:	EPA Registration Number:	Application Timing:
<input type="text"/>	<input type="text"/>	<input type="radio"/> Preemergence <input type="radio"/> Postemergence

BEFORE APPLICATION

Demographics

Full Name of Certified Applicator: State Certification # for the Applicator:

Preapplication

I have completed Annual Dicamba training (check for yes). **NOTE: APPLICATOR IS REQUIRED TO MAINTAIN A COPY OF THEIR TRAINING CERTIFICATE.**

I have purchase receipts for (check for yes): Engenia Herbicide VRA DRA

I have a copy of the product label including state-specific labeling (check for yes).

Total number of dicamba tolerant acres managed by grower in the county: Acres

Sensitive Crop/Areas

Name of Sensitive Crop/Specialty Crop Registry: Date Accessed:

Date Neighboring Fields Were Surveyed For Susceptible Crops:

ESA Mitigation

Date "Bulletins Live! Two" Was Consulted and Have a Copy of Any Relevant Bulletins for Application Site:

Number of Runoff/Erosion Mitigation Points Required: List of Mitigation Used to Meet Point Requirement:

NOTE: USING THIS FORM COUNTS AS 1 POINT.

APPLICATION

Application	National Weather Service (NWS) Forecasted High Temperature:
Date Of Application (MM/DD/YYYY): <input type="text"/>	Day of Application: <input type="text"/> °F Day Following Application: <input type="text"/> °F
Spray Nozzle: <input type="text"/>	NOTE: THE APPLICATOR SHOULD MAINTAIN A SCREENSHOT OF THE NWS FORECASTED TEMPERATURES.
Spray Pressure: <input type="text"/>	IF FORECAST TEMPERATURE OR BOOM HEIGHT TEMPERATURE IS 85-95°F, NOTE THE 50% OF DT ACRES TREATED RELATIVE TO THE TOTAL MANAGED BY THE GROWER IN THE COUNTY (NOTE THAT THIS MUST BE ≤50%).
	IF THE TEMPERATURE MEASURED AT BOOM HEIGHT AT THE START OF THE APPLICATION OR AT A SPRAY TANK REFILL ≥ 95°F, THE APPLICATION MUST STOP.

Engenia herbicide is a U.S. EPA RESTRICTED USE PESTICIDE. This form meets the RUP record keeping requirements for Engenia herbicide per the U.S. EPA label Reg No 7969-472, at "RESTRICTED USE PESTICIDE APPLICATION RECORD KEEPING AND TRAINING REQUIREMENTS." Please check with your state pesticide regulatory authority as additional requirements may be imposed by your state. Applicators are required to check www.engeniaherbicide.com/labels no more than 7 days prior to application for additional labeling, including state-specific labeling. For a list of approved VRAs and required rates, visit www.engeniaherbicide.com/VRA. To report suspected resistance against this product, contact your local BASF representative or engeniaquestions@basf.com. Additional application resources can be found at www.engeniaherbicide.com.

Always read and follow label directions. Engenia herbicide is a U.S. EPA restricted use pesticide. All Engenia herbicide applications must be made in accordance with all applicable Federal and state label requirements. In the event a state implements a more stringent Engenia herbicide application restriction, that state restriction will apply. Every application of Engenia herbicide requires the use of a Volatility Reduction Agent (VRA) (visit www.engeniaherbicide.com/ VRA for a list of approved VRAs and required rates) and the use of an oil emulsion Drift Reducing Agent (DRA) at a rate of 0.3% v/v. Record Keeping Guidance

Record keeping of all applications is required.

- All records must be maintained in accordance with the label and applicable federal and state law(s).
- Records should be kept by field(s) as defined by borders.
 - If you move to a new field with different borders, new records should be kept.
- Records must be made available upon request to State Pesticide Control Officials and/or EPA as required by applicable federal and state law(s).
- Refer to federal label for a listing of record details.

Additional state requirements may apply.

Engenia®

Herbicide

Engenia herbicide is a U.S. EPA RESTRICTED USE PESTICIDE. This form meets the RUP record keeping requirements for Engenia herbicide per the U.S. EPA label Reg No 7969-472, at "RESTRICTED USE PESTICIDE APPLICATION RECORD KEEPING AND TRAINING REQUIREMENTS." Please check with your state pesticide regulatory authority as additional requirements may be imposed by your state. Applicators are required to check www.engeniaherbicide.com/labels no more than 7 days prior to application for additional labeling, including state-specific labeling. For a list of approved VRAs and required rates, visit www.engeniaherbicide.com/VRA.
