

# Training for Approved Dicamba Formulations

## Additional Illinois Requirements

### Additional Requirements

- **Soybean - DO NOT apply after June 20<sup>th</sup>**
- **DO NOT apply this product if the air temperature at the time of application or the forecasted high for the day of application is above 85 ([www.weather.gov](http://www.weather.gov)).**
- Consult FieldWatch specialty crop registry prior to application and comply with associated record keeping requirements ([www.fieldwatch.com](http://www.fieldwatch.com)).
- DO NOT apply when the wind is blowing towards adjacent residential areas and any Illinois Nature Preserves Commission Sites.
- Check the Illinois Department of Agriculture website at <https://www2.illinois.gov/sites/agr/Pesticides/Pages/Dicamba.aspx> for details prior to application of any agricultural dicamba herbicide.

### Additional Recommendations

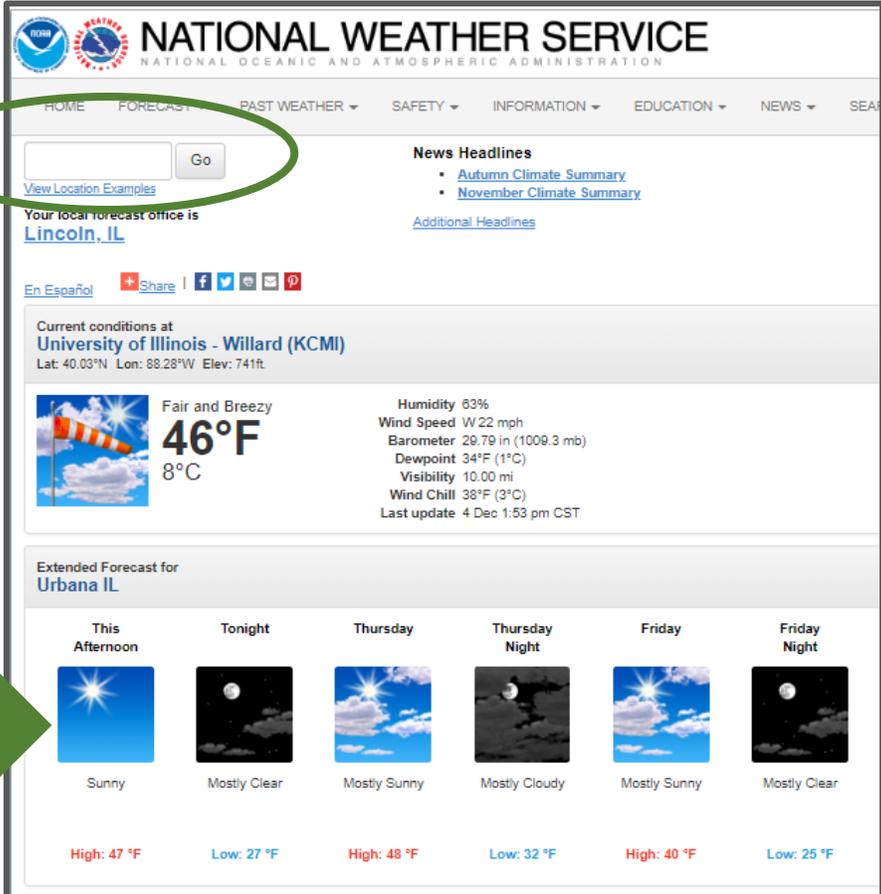

- It is best to apply when wind is blowing away from sensitive areas.

**DO NOT use dicamba if you are unwilling or unable to follow requirements**

## Temperature Restriction – Illinois

- DO NOT apply this product if the air temperature at the field at the time of application is over 85 degrees Fahrenheit or if the National Weather Service's forecasted high temperature for the nearest available location for the day of application exceeds 85 degrees Fahrenheit.
- If the forecasted high for the day of application = 85°F, applicators must follow the restriction of treating up to 50% of acres managed by the grower in the county.
- If the day of application forecasted temperature allows for use in IL, applicators must also consider the forecasted temperature for the day after application and follow all corresponding federal application restrictions
- Local National Weather Service forecasts are available at [www.weather.gov](http://www.weather.gov).
- Enter the zip code of the field on the morning of the intended day of application.

The screenshot shows the National Weather Service website for Urbana, IL. A green oval highlights the search input field and the 'Go' button. A green arrow points to the 'This Afternoon' forecast card, which shows 'Sunny' with a high of 47°F and a low of 27°F. The extended forecast table is as follows:

Time	Forecast	High	Low
This Afternoon	Sunny	47 °F	27 °F
Tonight	Mostly Clear		
Thursday	Mostly Sunny	48 °F	
Thursday Night	Mostly Cloudy		32 °F
Friday	Mostly Sunny	40 °F	
Friday Night	Mostly Clear		25 °F
