

Training for Approved Dicamba Formulations

Additional Iowa Requirements

Additional Requirements

- Soybean - DO NOT apply after June 12 or V4, whichever comes first.
- Cotton - DO NOT apply after June 12 or 1st square, whichever comes first.
- Records must be kept for 3 years (commercial applicators and retail dealers)
- The restrictions are posted on each company's website
- The EPA approved labeling containing the restrictions must be in the **user's possession** during application.
 - Check the company's website to download the additional labeling **prior to the application** of any of these three dicamba products.
- Contact the product registrants with any questions regarding the availability of additional labeling.

DO NOT use dicamba if you are unwilling or unable to follow requirements
